

Marks & Spencer – The Rock, Bury

The Marks & Spencer new store at The Rock, Bury, at 48,000 sq ft is almost double the size of the old Bury M&S premises and offers more floorspace and a bigger café.

C & S carried out the whole electrical installation including the Fire Alarm system, P.A. system and the BMS system, which is linked into the lighting system for offsite control, all to M & S's strict requirements.

C & S carried out a further £402,000 electrical installation to the Apartments situated above the Marks & Spencer's store.
